Proses mengubah data status transaksi

1. Halaman awal status masih “diproses”

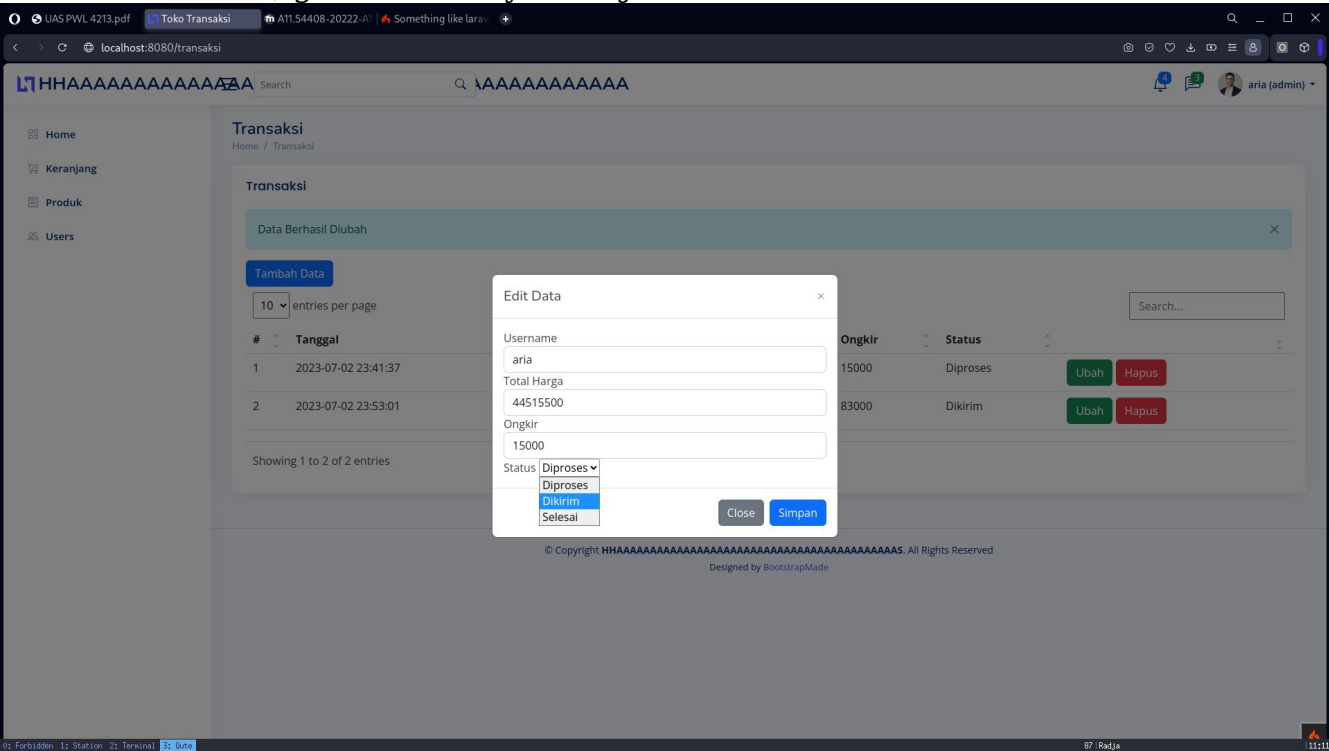

The screenshot shows a web application interface for managing transactions. The browser address bar indicates the URL is `localhost:8080/transaksi`. The application has a sidebar with navigation links: Home, Keranjang, Produk, and Users. The main content area is titled "Transaksi" and displays a message "Data Berhasil Diubah" (Data Successfully Changed). Below this, there is a "Tambah Data" button and a dropdown menu set to "10 entries per page". A search bar is also present. The transaction list is as follows:
